

## **Fleetcare Asset Management**

### **Why use Millar Fleetcare Management?**

With the ever increasing demands on fleet operators Millar Fleetcare will assist in managing the service and maintenance of customer assets. Millar Fleetcare works closely with the customer to maintain the assistance required to meet the operator's license.

### **Our management system will assist in the following areas:**

#### **Assist in service and Mot planning**

Servicing and Mot planning is at the forefront of any fleet operators agenda. Millar Fleetcare can assist by electronically plan and monitor servicing and Mot dates. Our fleet operators constantly monitor the system and update the planner in accordance with O'License requirements.

#### **Assist in breakdowns 24 / 7 / 365**

Millar Fleetcare will handle all breakdowns whether mechanical, tyres or accident damage via their network partners.

#### **Set up local service providers**

Millar Fleetcare would locate local service and repair providers to carry out all mechanical work, we will then set up the local tyre provider to carry out tyre check, repair and replacements. Our approved service and repair agents are selected for their location and facilities together with their skills level, ability, capability and standard of work.

#### **Central records office**

Millar Fleetcare will keep a complete history of all vehicles which are held on our electronic data base that can be accessed 24 / 7 / 365.

#### **Unique log in for security protection**

All documents are held securely with a unique customer log in for security protection. With the ability to log in from any location you are able to access documents at any operating centre and transfer the data without having to move paperwork that may go missing.

#### **Online records / documents that can be accessed 24 / 7 / 365**

The online central office records / documents will be viewed in the following user friendly way, just click on 'view' to see any document required and print as necessary.

#### **Online advanced warnings of service, Mot tachograph calibration, road fund licence dates**

The planning of servicing, Mot, tachograph calibration, road fund licence is advised via online advanced warnings. An email will be sent to the customer, the service agent and Millar Fleetcare to ensure everyone is forewarned and prepared. If a vehicle exceeds the required service date a reminder is sent to the customer advising a service is overdue.

## Online warnings of service / Mot / tachograph / RFL dates not met with constant reminders

Millar Fleetcare will audit and control maintenance costs in accordance with customers requirements. Audited inspections will be carried out to ensure that maintenance and repairs are kept to a high standard.

## Assist in Controlling Budget Maintenance Costs

Millar Fleetcare will audit and control maintenance costs in accordance with customers requirements. Audited inspections will be carried out to ensure that maintenance and repairs are kept to a high standard.

## Assist in monitoring driver defects sheets.

Millar fleetcare will monitor all driver defect sheets to ensure any defects are rectified as quickly and efficiently as possible so that customer vehicles are operating to ministry standards.

All maintenance and legal documentation will be scanned and held on Millar's electronic library for the customers use, each customer will be given access to their own documents via a security code.
