

Asset Inspections

Why use Millar Europe Ltd to inspect your vehicles?

Millar's leading professional inspection services include solutions tailored to your individual requirements, where we will carry out independent inspections from pre-delivery to end of lease.

Millar's Team

Engineers

- Are qualified and trained to carry out full independent appraisals of all types of equipment.
- Have fully equipped mobile vans providing on-site inspections nationwide.
- Have a vast range of product knowledge.
- Comply with all health and safety regulations.
- Will comply with return conditions, manufacturers guidelines and fair wear and tear.
- Will list vehicle information and defects found and leave a copy of the report with the client to rectify.
- Will take photographic evidence of defects found.
- Will advise the client on the best course of action regarding rectifying defects.
- Will obtain copies of the legal documents and service history of the vehicle from the client.
- Will highlight any documentation issues that are not in accordance with O'Licence requirements.

Admin

- Will liaise with the client to arrange convenient inspection date.
- Will issue a repair estimate for all defects listed on the inspection report.
- Will upload inspection report, estimate and photographs on to our website.
- Will issue client with username and password to access the website to view, download and print the full report.
- Will assist with any disputes that may arise and independently advise on what course of action can be taken.

Millar Inspection Report

Pre-Delivery Inspection

Two part vehicle inspection which checks that the vehicle meets the clients build specification and quality control which includes service items and ancillary equipment.

Fleet Check / Interim Inspection

Two part vehicle inspection to monitor the vehicles condition of road worthiness whilst in service.

Cosmetic Inspection

Three part vehicle inspection that covers all defects internally and externally including ancillary equipment.

Mechanical Inspection

Three part vehicle inspection to check for roadworthiness and to detail the general mechanical condition including ancillary equipment.

Valuation Inspection

Four part vehicle inspection to detail the complete vehicles condition including ancillary equipment. A Valuation Conclusion will be produced with a guide price of the vehicles value taking in to consideration any defects found.

End of Lease Inspection

Four part vehicle inspection that lists all defects including ancillary equipment that do not meet return conditions set out at the beginning of the contract.

Re-Inspection

One part vehicle inspection to check that all items listed on End of Lease of Inspection have been rectified and of a commercial repair standard.
